Dear Chan, Patrick and Jeri,

We have attached additional photos that we would like to share with you. They were taken at different times on on Tuesday July 20th, 2010 and correspond with previously reported fill activity on that day. The written witness reports from that day estimate 50-80 dump truck trips that day, with a similar amount the day prior, and a slower pace over the previous weeks.

We hope these are helpful to your investigation.

We will send the pictures in three e-mails to limit the total attachment size.

Thank you,  
Concerned Residents
